

The Data Science Canvas Model TM

Group Name: The Vigilantes

Date: 28-Nov-2018

Version: 1

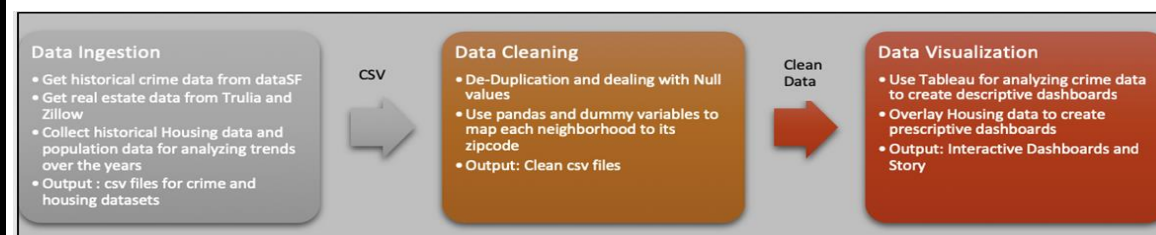

Goal:

1. To help prospective buyers with information about safest places to buy houses in Bay Area within desired budget
2. To forecast the crime rates in chosen location within Bay Area

Team:

1. Aditi Yogesh Tupsakhare
2. Arjoo Gangwal
3. Jayalakshmi Vaidyanathan
4. Varuna Paul Jeeva

Pipeline / Architecture:

Problem:

How to identify houses that are available for sale in Bay Area that are affordable as well as safe for the buyer?

Audience:

Prospective user planning to buy/rent houses in Bay Area

Solution:

- Provide end to end solution for identifying best houses that are within the buyer's budget as well as at safe places
- Provide forecast of crime rates in future so that the buyers can be cautious and choose places that are safe for next 10 years
- Combines the crime report data and housing data into user-friendly dashboards
